re: Los Angeles Wheelmen

Dear Betty, Ted and Herb:

You people are fantastic!

When I arrived for my first meeting, Betty already had our old website up on the screen and was ready with some suggestions. We talked about layouts that would look good and what I preferred. Then, only a few days later, she had a completely new site ready for my review. It looks much more professional, and the design is consistent across all the pages. I know she worked very hard at this, because there were plenty of pages in our website to convert.

For our second meeting, she spent a lot of time showing me tips on using Adobe Dreamweaver to modify the site according to particular needs. We tried a few changes for demonstration purposes.

Herb also contributed several useful ideas.

I couldn't have asked for more if the Wheelmen had paid for these services. Betty, Herb and you gave me a much better looking website and some tools to maintain it.

Good luck in your various outreach activities. Your computer training center is very impressive.

I plan to stop by and say hello whenever my travels take me to your area on a Tuesday or Wednesday.

Sincerely,

Bobbi Gold
Webmaster, Los Angeles Wheelmen
