Ste. 101  
Rancho Palos Verdes, CA 90275

Dear Ted,

On behalf of the Palos Verdes Amateur Radio Club I wish to take this opportunity to express our gratitude to you and Palos Verdes on the Net. Your organization has been the host of the Club's Web Site for several years and you have provided that service with out any charge.

The Web Site had provided improved community outreach for our organization and has allowed HAM radio operator and others from around the world to participate in our activities and learn more about the Palos Verdes Peninsula and the Palos Verdes Amateur Radio Club.

Our "Project Page" with its many new, state of the art, Club member designs for antennas and other amateur radio equipment has become very popular. Many other HAM radio clubs now have links to our Web Site.

Again we wish to extend our thanks to you and PV on the Net. The success of our Web Site is in a large part due to your help and support.

Regards,

A handwritten signature in cursive that reads "Melvin W. Hughes" followed by the call sign "K6SY".
