

## Parent Agreement Form

Climate Sustainability Advisory (CSA) is a student-run organization sponsored by PVNet. We emphasize environmentally sustainable ideas by researching, developing and presenting our plans to our local city councils. The results of our previous research topics ensued in recommendations which were presented to City Councils including RPV, PVE, and RHE and were well received. Previous topics included native plants, water conservation, electricity conservation, and road maintenance. We have weekly meetings on Saturdays at 2pm (subject to change) and run through one full school year. Completion of this project is mandatory. There are limited spots available for those who are interested.

By signing this form...

- I approve and support my child participating in this course.
- I understand the rules and guidelines and agree to the early withdrawal conditions.
- If my child withdraws from this program before its completion, I agree to pay \$300 as a donation to PVNet. (Completion of the program culminates as presentation to the City Council)
- I will make sure my child is aware of the 3-5 hour/week time commitment as part of CSA.
- I understand that my child is also committing to 4 hours/week of interning hours at PVNet (outside of CSA).
