About Toy

The toy is inspired by old tvs from the 1960's, the toy can display photos. The toy is made for the age group of teens. The toy comes in all different colors. A toy that for display and can be decorated however you like.

Toy manufacturing

The company I went with was JLC3DP. And for one it's 109\$ and for 50 it's 5,472\$. The website let me customize what material and what type of printing I wanted. I went with resin since it was the cheapest. The website did offer coupons depending on how much I spent in total. The coupons ranged from 5-300 dollars off. And my 3D print would take 3-4 days to be done.
